FORTY-THIRD YEAR NO. 30.

CEDARVILLE, OHIO, FRIDAY, JULY 23, 1920

PRICE, \$1.50 A YEAR

ELEVATORS FACE SERIOUS PROBLEM

How are the elevators of the country to take care of the new wheat crop? This question probably does not directly interest the farmers and threshing men just at present, but unless some change is made in the railroad situation, there is going to be no chance to ship out the new crop of wheat. Only a few days threshing and all local elevators in the country will be filled to capacity.

County Commissioner R. D. Williamson, who is also a member of the Ohio State Board of Agriculture, in forms as that a meeting was held in Columbus several days ago to go over the situation. Representatives of the State Farm Bureau, State Grange and Elevator and Grain associations were present.

In the canvass it developed that there were a very large number of elevators in the country that are from one-third to three-fourths filled with corn that cannot be shipped. In some cases the elevators cannot take any wheat at all as the bins are filled with corn and no cars. Some of these elevators have not had a car in five weeks.

With no apparent change in the railroad situation all the grain elevators are facing serious trouble and prospects of heavy loss by loading up with new wheat.

The State Board is powerless to compel railroads to furnish cars. In fact the companies say they have not enough cars to ship wheat. The labor controversy has paralyzed transportation not only for wheat or corn but for everything else.

WM. FRAME TOPS THEM ALL

By all odds the best shipment of fat cattle to leave this market was shipped yesterday to D. B. Martin & Co., Philadelphia. The three-year old cattle were fed by William Frame on the O. L. Smith farm and were of the Hereford breed and averaged 1800 pounds. The cattle were of average size and probably did not vary 50 pounds in weight. They were as smooth as a ribbon and top notches in any show feeding ring. Mr. Frame purchased 45 tops last December from a bunch of 120 head at Kansas City. These cattle have been on grass all summer and the corn of late which they have been fed.

WILL IS PROBATED.

The will of the late Dr. E. C. Oglesbee has been offered for probate. All of the estate is left to the widow her lifetime, while she remains a widow. At her death or should she remarry the will provides that the estate be divided between the two children. The executor of his daughter, Dorothy, is directed. The will was witnessed June 19, 1920 and was witnessed by Dr. W. R. McCaskey and Andrew Jackson. Mrs. Oglesbee is named as executor without bond. Dr. L. C. Walker, Jamestown, J. E. Turnbull and W. L. Clemans were appointed appraisers.

"SLEEP-PROOF LECTURE" COMING TO CHAUTAUQUA FROM CLASSIC BOSTON

Dr. Franklin Darr, the "sleep-proof lecturer," will tell Chautauqua audiences this summer about "The 100 Fat Men." "These men eat as much as you but don't get fat," he says. "I will show you how they do it." He will also tell about his own experience with a sleep-proof diet.

NOTED BAND MASTER WHO DIRECTS NEAPOLITAN MUSICIANS AT THE CHAUTAUQUA THIS SUMMER

Signor Luliet Castiglioni will lead his famous Italian band in a series of Chautauqua engagements this summer.

COUNTY WILL NOT LOOSE ON THE SHEETS' BOND.

The county will lose nothing owing to the shortage of George W. Sheets, former clerk of court, as representatives of the National Surety Company of New York, and Prosecutor Harry D. Smith, and special counsel, Judge Marcus Shoup, have reached an agreement and the county will be reimbursed for \$5000, which covers the shortage, interest and the transcribing of 188 cases. W. L. Miller was the attorney for the Surety Company following the suit by the county and has recommended this settlement and a check is looked for any day. L. T. Marshall of Xenia is the county agent for the surety company.

The exact amount of the shortage claimed by the State Bar Association was \$108.55. Transcribing cases, \$188. Interest of \$50 was added making the amount the county owed to county \$5000.

When the shortage was first discovered by Judge Kyle the State Bureau of Accounting was notified and John A. Bliss sent to examine the books. Upon the official amount being certified by the Bureau notice was sent to L. T. Marshall, local agent; to the state agent at Columbus and to the head office in New York City. Mr. Sheets also received a copy of the same notice in the legal way. All these notices were sent by registered mail and the county did not even get a reply recognizing the claim. The county commissioners under the circumstances could do nothing else than bring suit which they did. This brought result and the county took time to recognize the claim. In the settlement Prosecutor Smith and Judge Shoup would not listen to anything else than a full settlement.

The Sheets trial took on more or less of a political aspect. The Gowdy-Marshall faction taking Mr. Sheets' side of the case. From the day the jury reported until the present time this faction has been spreading a propaganda among the friends of Mr. Sheets that he was "railroaded" to the penitentiary. Mr. N. P. Ewbank of this township was one of the jurors in the case.

The case must be viewed from another angle. R. L. Gowdy is a candidate, or rather has been a standing candidate for common pleas judge in this county for some years. If he and Marshall could excite the voters and friends of Mr. Sheets against Judge Kyle, who was compelled under the law to remove Mr. Sheets from office, following the report of the Bureau of Accounting, he then would have a nucleus for the fall campaign.

It must also be taken into consideration that every dollar that Mr. Marshall could save for the bonding company was clear gain and to the credit of his company. But every dollar so saved to this company was lost to the taxpayers of this county.

SIX-LEGGED COW SOLD.

HARRODSBURG, KY. E. O. Murphy of this city has sold to J. E. Bell of Laport, Ind., his fine six-legged cow, Bess, for \$1100. The animal is 8 years old, a perfectly healthy, normal cow in every respect except that she has two extra, well developed, Bess has raised four calves. She is in every way a gentle cow that loves green pastures and still waters, but life for her hereafter will be one round of garnish gawdy on the Midway of some carnival company, for her new owner expects to use her for exhibition purposes.

Cedarville Chautauqua, Aug. 10-14.

RAILROAD MEN GET INCREASED WAGES

The Federal Railroad Board granted 1,800,000 railroad employees an increase in wages Tuesday that average 21 per cent, retroactive to May first last. While this is not all the demands of the unions yet it means a salary increase of \$400,000,000 annually. It is a question at this time whether the unions will accept this increase and have the question go to a referendum among the various unions. Some are inclined to think that the increase will be accepted for the present at least. The increases asked by the unions would amount to a billion dollars.

How this increase is to be met is yet to be determined. The railroad companies claim a 25 per cent increase in freight rates will be necessary while the passenger rates would also be pushed up. The Federal Board contends that an increase of freight rates amounting to 18 per cent is all that is necessary.

Engineers and firemen will get an increase of 80 cents a day for passenger service; freight \$1.04 per hour. Passenger conductors, etc., \$3 per month. Freight \$1.04 a day. Machinists, boiler-makers, etc., 13 cents an hour increase. Car cleaners 5 cents an hour. Telegraphers, telephone operators, towmen, etc., 10 cents an hour.

Construction forces track men, etc., 15 cents an hour; laborers employed in shops and round houses, 10 cents an hour; bridge tenders, pumpmen, crossing watchmen and lamp lighters \$1.25 cents an hour.

Storekeepers, chief clerks, foremen stationmasters, baggage and parcel employees, 13 cents an hour; freight handlers or truckmen, 10 cents an hour.

NEW PARTY NOT DANGEROUS

The new party that was organized last week in Cincinnati has named a candidate for president and for vice president. As usual trouble is breaking in the ranks of the radicals who have had trouble among themselves. Neither the Republicans nor Democrats have anything to fear. The committee of "forty-eight" was composed of radicals, single taxers, labor organizers. It looks like a lot of time for any set of men to get up a party that they can't accomplish anything with.

Here now for some suggested action on the part of the people and assist the Republican party to restore democratic government.

PROHIB NAME BRYAN.

The Prohibition national convention at Lincoln, Neb., on Wednesday, nominated William Jennings Bryan as candidate on that ticket. It is not known that he will accept if a letter from Charles Bryan, a brother, who protested action that W. J. would decline. William "Billy" Sunday has been mentioned for vice president on that ticket.

THE FIRST WHEAT CROP.

F. O. Harrison was among the first to thresh in this section. The quality of his wheat was fine for this season and tested about 59 pounds. The average per acre was 24 bushels. A number of others are threshing and we hear only fair returns so far. The wheat that was cut early and more or less green has considerable moisture which is against the grade. The local elevators owned by the Cedarville Farmers' Grain Co. have been improved to handle the crop better than in the past. Number 2 wheat is worth around \$2.80 a bushel. A large number of farmers are putting their wheat in the barn.

STRAW BOARD MADE FROM RICE STRAW

Representatives of various manufacturers that have been using straw paper and straw board for corrugating purposes have been having their trouble getting orders filled at straw board mills due to the scarcity of straw.

The situation has made the price of strawboard much higher than ever before, always in the past the cheapest paper of any kind on the market.

Many experiments have been conducted at great expense by some of these concerns in an endeavor to get some material of a fiber nature that could be secured cheaper than wheat straw.

In the south there are thousands of acres of rice straw burnt each year to get it out of the way for another crop. No use has ever been found for it.

A Cincinnati concern concluded to try out the rice straw and several car loads were shipped to a paper mill but the mill was unable to make a suitable sheet of paper or board.

The company did not give up its search. The Hagar Straw Board & Paper Co., having the reputation of manufacturing the best straw board in the U. S., was next enlisted in this search.

Mr. George Little was appealed to for assistance and as a result the local mill was turned over for that purpose. The task was up to Supt. A. Z. Smith, and not having failed in the past to accomplish some wonders in the manufacture of this product Mr. Smith set about to solve the solution.

The rice straw was sent through the rotary rollers and cooked and then to the batters where it was ground to the necessary requirements.

It next went to the machine room for the rolls where it took on the form of paper and was dried. One remarkable fact about the rice straw stock was that it took much less steam to dry it.

Mr. Smith stated to the Herald a day or so ago that this paper was made with a representative of the Cincinnati concern present. The first roll to come off the machine was taken by automobile to the Queen City and sent through a corrugating machine. Telephone communication is that the rice straw paper was stronger in every particular.

Straw paper made from rice straw is the secret that Mr. Smith is holding to himself. The fact that rice straw makes good paper is already proven and that it can be made cheaper from rice straw than wheat straw is much in its favor.

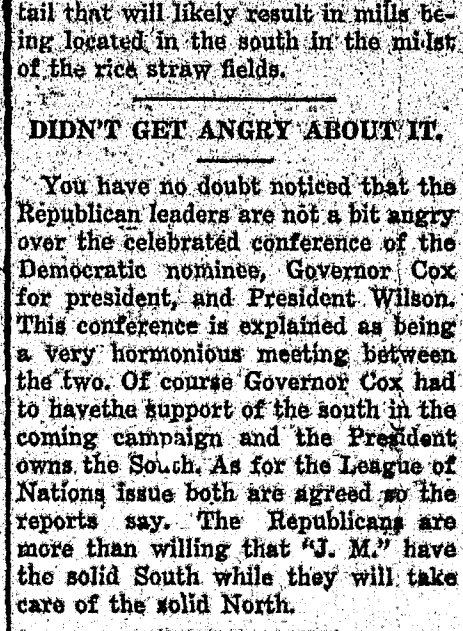

It is thought the success of the experiment so far will enable paper interests to go into more extensive detail that will likely result in mills being located in the south in the midst of the rice straw fields.

DON'T GET ANGRY ABOUT IT.

You have no doubt noticed that the Republican leaders are not a bit angry over the celebrated conference of the Democratic nominees, Governor Cox for president, and President Wilson. This conference is explained as being a very harmonious meeting between the two. Of course Governor Cox had to have support of the south in the coming campaign and the President owns the South. As for the League of Nations issue both are agreed on the reports say. The Republicans are more than willing that "J. M." have the solid South while they will take care of the north.

NOTED BARITONE KNIGHTED BY KING OF ITALY, WILL SING AT THE CHAUTAUQUA

G. FREDERICK BONAWITZ

G. Frederick Bonawitz, baritone, who is appearing on the Chautauqua program this summer, has been brought into international prominence during the war by virtue of his Red Cross work in Italy.

He is bringing back with him the War Cross and the medal of bronze for merit in the Italian Red Cross.

Between his service as a singer and his work during the war lies a common bond—his personality, which has a great depth of human sympathy. Few singers have this quality as successfully as Bonawitz.

THE WHEAT MARKET.

The Chicago wheat market opened last Thursday after having been closed since the government took control of foodstuffs when we got into the war. The government then fixed the price of wheat, and there was no occasion for open wheat market. But now that the government has given up control of the grain, the market opens and men buy and sell in competition with each other, thus fixing a price from hour to hour, or agreeing upon a price they will pay for wheat at some future date.

The market opened around two dollars and seventy-five cents a bushel, about what was expected. Friday it fell ten cents a bushel. It will likely fluctuate considerably in the next few days but it is reasonably certain to remain in the neighborhood of two-seventy-five for some little time. There is no reason to believe it will vary from that figure twenty-five cents for the present.

Transportation facilities do not enter into the present price of wheat, but may do so later on. That is, if the large centers of population are unable to secure an adequate grain supply because of transportation, the grain will be high in such centers. But the price of wheat on the Chicago market is really controlled by the price which the Europeans are willing to pay for it.

There are many people in this country who believe that wheat will go to four dollars, or even five dollars a bushel. Just what they base their belief upon, we do not know. There is a pretty good wheat crop all over the world. Europe's crop is much better than last year. There is a lot of unsold wheat in Australia, and marine transportation is such that it can now be moved to Europe. Argentina has plenty of wheat. We entered the harvest with a large surplus, and this year's crop, while not as large as last year's, is tremendous. All told, we shall have several hundred million bushels to spare. So it is hard to see why wheat should command any such price as four dollars a bushel unless transportation breaks down completely, when, of course, a bushel of wheat would be worth anything the owner of it, if he had it where it was wanted, saw fit to charge.

Herman Straley met with a bad accident one day this week when a team of horses hitched to a mower ran away. One of the lines became tangled and Mr. Straley endeavored to right things while standing on the mower. There was a colt in the team that was not used to the unusual shifting of the lines and it gave a lunge throwing the driver under the mower. As a result Mr. Straley received bad cuts and bruises on the head and body and yesterday was taken to a Xenia hospital. It was a mystery that he escaped with his life.

Ants That Plant.
A species of ants living on the semi-arid plains of Texas cultivates areas of grass about their dwellings. On the cultivated space, which may have an area of ten to fifteen feet, only one kind of grass is allowed to grow, and it is said that the seeds of this grass are planted by the ants. Roads are laid out regularly, and the shoots of undesirable plants are promptly nibbled off as fast as they appear among the crops. When the harvest of the protected grass is ripe the ants collect the seeds and convey them along a radiating highway to the little rooms in their hills. Interesting and wonderful is the economy of these tiny insects. They may, when the colonies are large and numerous enough, do considerable damage to grain in fields where their mounds are reared and the clearings made.—Brooklyn Eagle.

Keeping Cut Flowers.
Most kinds of cut flowers will keep for a long time if they are completely immersed in water. Place the blossoms in bowls of water, even at night, and take them out and rearrange them in the morning. The flowers will often appear as fresh as if they had been newly gathered.—Popular Mechanics Magazine.

Are You Stringing Along With the G. O. P. Fuel?

All parties endorse it, regardless of creed. It's there with the power to win in a romp—the choice of Ohio, because it is best.

You're playing a loser and gyping yourself if you don't take the tip from the Wisconsin boys and load up with pure

Columbus Gasoline

It's G. O. P. gasoline, because it has the Grand Old Pep that puts life and ambition in the most sluggish cars.

After you've used a tankful of Columbus you'll approve every plank in its platform—the quick start, the fast getaway, the power on hills and in heavy going, the unusually big mileages per gallon.

And you'll never accept any of the other brands of gasoline with their reservations.

You'll just get the Columbus habit and vote the straight Columbus ticket as long as you own a motor car.

That's how good Columbus is.

JUNIOR CHAUTAUQUA

While grownups are attending lectures and entertainments on the Chautauqua program this summer, the kiddies of the neighborhood will find special activities prepared for them as part of the Chautauqua week.

Expert junior workers, drawn from the ranks of public school education, will make possible story telling hours, hikes, games, the presentation of a "Mother Goose" package and above all the formation of a Junior Town in which the boys and girls will hold real offices and conduct the affairs of their miniature city in real businesslike fashion.

There will be something doing for the kiddies every day of the Chautauqua week. They will not only like, but which will leave its permanent imprint on their growing lives.

M. A. BROADSTONE STRONG CANDIDATE FOR STATE REPRESENTATIVE

M. A. Broadstone is a candidate for the Republican nomination for state representative from this county at the primary August 10th. His ability as a lawyer cannot be questioned and his service in the House should be to the credit of the county.

Several years ago Mr. Broadstone served in the state senate from this district. At that time the Senate was controlled by the Democrats and one of Mr. Broadstone's notable achievements at that time was to upset the Democratic caucus plans to force a road law through that would touch only large cities of the state.

Mr. Broadstone enlisted the service of Democrats as well as the Republican members from the rural counties to show them there never would be any chance for good through highways in their counties unless they were on a line of certain cities.

On the floor of the Senate Mr. Broadstone conducted his fight and regardless of the fact that the bill had been endorsed in caucus, it was defeated.

It developed that even the Democratic rural members were not aware of the "gleaner" in the bill that was to be to the advantage of the large cities, at the expense of the rural counties.

Greene county is over-burdened with legislation and has been for some time. What people want is relief from some of the present laws, particularly where our system of government has been so enlarged that the cost is out of reason. We do not believe a single citizen in the county can say that we need new laws for any other purpose.

What we do need is a man in the House that will watch the interests of our people and not let such legislation get by as was put over last winter when the truck interests had the protection to our roads removed.

We believe that Mr. Broadstone is capable in every way to guard the interests of not only Greene county but all the rural counties in the state. He has spent his life in this county and we know his interests at heart are with our people. A strong man to watch the other fellow is most needed in the legislature. A fellow that can see between the lines in a tricky bill as did Mr. Broadstone in the Senate some years ago.

NO CARS FOR SHIPPING.
The new rule of the railroad company on cars will have a noticeable effect on two of our local concerns. Monday orders were received that no more cars could be furnished for the present for out-bound freight. This hits the Hagar Straw Board & Paper Co. and the Cedarville Lime Co.
